

## PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Universal Rack Company with a mailing address of 70 Athens Drive, Mt. Juliet, TN 37122. They seek to obtain an air contaminant permit (Division identification number: (95-0002-02/60463)) for modification of a Gas-fired Paint Burn-off Oven Operation located at 70 Athens Drive, Mt. Juliet, TN 37122. This existing operation consists of one 800,000 BTU per hour natural gas-fired burn-off oven and associated equipment used to remove coating from metal frames. The requested modification is to replace existing oven with a 1,000,000 BTU per hour natural gas-fired oven to supply anticipated increased load. An afterburner would be used for control. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the Wilson County "Lebanon Democrat"--publish once as soon as possible.
